Security Officials Urge Heightened Alertness

Security officials are calling for service members and their families throughout the ASG to heighten their personal vigilance around May 1, an historic period for terrorist activity.

Although there is no credible specific threat against U.S. Forces in the Stuttgart area, incidents involving unspecified threats continue, officials said. While such threats may be the action of individuals, the environment that spawns them could conceivably encourage organized terrorist groups to initiate anti-U.S. action. German Polizei and U.S. military police will continue to maintain their focus on the security of U.S. installations and activities throughout the ASG, officials said.

Larger towns and military facilities throughout Germany continue to experience short, or no-notice demonstrations tied to NATO actions in Yugoslavia. While these demonstrations have generally been peaceful, isolated acts of harassment, violence or vandalism directed against U.S. or NATO civilian or military personnel are likely. Americans should avoid known demonstrations.

There have been more reported cases of suspected surveillance in Europe recently. It is important that individuals who observe suspected surveillance note as many details as possible, such as descriptions of people, vehicles and license plate numbers, and report the sighting to the 6th Area Support Group Security Office at 0711-729-2133 or the Military Police, 0711-680-5261.

Women Assaulted at Frankfurt Airport

Four women were assaulted at the Frankfurt airport in the last three months. Some of the descriptions of the attacker are similar to the ones that occurred last year, but other information leads the police believe that this is a new attacker.

6th ASG security officials recommend that American women not accept any help from strangers in the airport. The attacker initially appears very friendly and helpful. He offers women his help, takes them to an isolated area such as a stairwell or hallway, and tries to assault them. For more information call the 6th Area Support Group Security Office at 0711-729-2133 or the Military Police, 0711-680-5261.

accuracy of OHA payments for every USAREUR soldier living off post depends on soldiers completing the survey. For more information call 0711-680-5100.

L.L. Bean Recalls Backpacks

In cooperation with the U.S. Consumer Product Safety Commission, L.L. Bean, Inc., of Freeport, Maine, is recalling about 13,000 backpack child carriers. Small children can work their way out of the harness and fall through a leg opening or topple out of the top of the carrier, causing head and body injuries. Of the 25 reported incidents five children received injuries, including head bumps, a fractured wrist, bruises, abrasions and contusions. The model number of these backpack carriers, W695, is written on a tag inside the rear storage compartment in the upper left side. They are teal and have gray harness straps. Consumers should stop using both of these carriers immediately and call L.L.
